INMATE & EMPLOYEE
Temperature Check
Mobile Solution

Identify and monitor people for signs of COVID-19 by performing temperature checks. Electronically record the identity of those whose temperature was taken, when it was performed, and at what temperature they were measured using the EPIC Track App solution from your smartphone, tablet device or a desktop workstation.

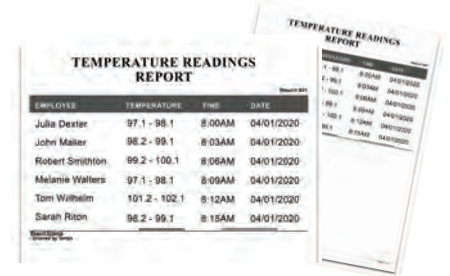

IDENTIFY

> Identify people in and entering your facility by scanning their ID card with the EPIC Track app/desktop software or choosing from a preset drop down list of names.

TRACK

> Perform temperature check and select their temperature reading from the drop down down list or by scanning a temperature measurement sheet to record activity.

REPORT

> Generate reports on all daily or special event temperature readings, including all data captured during the event (name, temp, time, date, etc).

Mobile Solutions®

Mobile Identification

Users can access the individuals ID by scanning an INMATE ID card, or Clincher band with the ID in the Bar-code or by scanning a visitors Government Issued ID Card.

If there is a need to produce an ID card we offer a complete solution for printers and software, including wristband printers with full color photos and bar-codes that can be used with the PDC CLINCHER™ bands

EPIC Track

EPIC Track is a basic tracking solution used to track people, places and things. The software provides a time stamp during check in/out by scanning a barcode ID or selects from drop down lists.

The EPIC Track App performs tracking from a smartphone and provides greater connectivity due to cell phone tower connections.

EPIC Track is compatible with operating systems such as:

iPad and iPhone are trademarks of Apple.
