

HALO CAMS

Next-generation body cam technology. HALO is a complete safety solution, using innovation to stay ahead of threat and reduce risk.

Lives and businesses are better safeguarded by more advanced camera tech on the ground, and more intelligent asset management in the cloud.

THE NANO BODYCAM

Small in size,
mighty in impact.

A body camera innovation poised to redefine the landscape of retail loss prevention and elevate security protocols for our valued retail clients worldwide.

So subtle it's
practically invisible.

The HALO Nano BodyCam is the smallest and lightest body camera on the market, making it an unobtrusive tool that can be worn without causing discomfort or drawing attention. Its design is sleek and discreet which can be customised and blend seamlessly with a variety of retail uniforms.

POCKET-SIZED POWERHOUSE.

Packed with features like 1080P full HD resolution, 12-hour continuous recording, and WI-FI-enabled live streaming capabilities, the NanoCam is a versatile device that can be tailored to meet the specific needs of each retail client. Its long battery life and durable construction ensure that it can withstand the rigors of daily use, while its user-friendly interface makes it easy to operate and manage.

12-HR CONTINUOUS RECORD

Full-shift battery life enables you to capture footage back to back.

1080P FULL HD RESOLUTION

Capture evidence and stream smooth footage in a poor environment.

AES256 ENCRYPTION

Complete protection of classified data.

LIVE STREAM CAPABLE VIA WIFI

Live stream with ease using high efficiency video coding.

COMPACT & LIGHTWEIGHT

Sleek and discreet, blending seamlessly with a variety of uniforms.

CRYSTAL CLEAR EVIDENCE

Court compliant footage that plays a pivotal role in legal disputes.
